Preventing the spread of infection  
& ensuring safe health screening  
programmes

Audiometry | Spirometry | General hygiene

# Who we are

Amplivox creates a healthier future by providing accessible and accurate medical solutions for everyone.

We understand the health of employees and patients is an essential part of any workplace screening environment.

We supply an extensive range of disposable hygiene consumables to help prevent the spread of infection, whilst ensuring compliance with relevant legislation.

For everyone

# Our approach

In a climate of rising costs, morbidity, and mortality caused by healthcare-associated infections, using proven methods to reduce the spread of infection is paramount.

It is therefore critical to ensure that health screening programmes reduce and eliminate the potential for possible infection.

We strive to provide the best disposable hygiene solutions to help clinicians, occupational health professionals, employers, and employees do their work safely and efficiently.

By listening to our customers and applying feedback, we have developed a comprehensive range of approved and tested products, manufactured through a recognised and audited quality management system.

Our hygiene consumables and accessories are compatible for a range of health screening equipment and medical consulting room requirements (including test hygiene related consumables).

We will endeavour to source any materials not listed in this catalogue to fulfill your business needs.

# Audiometry

## Audiometry infection control

### Ear cushion covers

Ear cushions can serve as potential carriers of micro-organisms (from the air, skin contact, draining ears, etc.) (Bankaitis, 2012).

Ear cushion covers serve as a physical barrier for headphone users where there is direct contact of the pinnae (outer ears) with the headset ear cushions.

Made of acoustically transparent material, the covers are designed to fit over the earphones.

Ordering information:

Covers for standard headsets:

Amplivox stock code: 8107419

£69.99 per box (500)

Covers for Audiocups headsets:

Amplivox stock code: 8513404

£23.33 per box (100)

# Spirometry

## Spirometry infection control

### Single-use mouthpieces

Suitable for inspiratory and expiratory spirometry testing, single-use mouthpieces provide effective protection from cross infection when conducting spirometry with regard to safety critical medicals.

Single-use Bacterial Viral Filter (BVF) mouthpieces in place of standard one-way filter or no-filter design mouthpieces are ideal, providing:

- Improved hygiene
- Reassurance for the test subject undergoing the spirometry test
- The BVF mouthpieces will fit MicroMedical, MIR & Vitalograph spirometers

Featuring an elliptical end for patient comfort, they are designed to allow the patient to use the filter itself as a mouthpiece rather than having to add a traditional mouthpiece.

Bacterial filters are the most practical and cost-effective way of ensuring that there is no risk of cross-infection between patients during spirometry testing. They have a maximum efficiency in trapping and removing up to 99.99% of bacteria and viruses. Ordering information:

BVF mouthpieces  
Amplivox stock code: 1060011  
£106.03 per box of 100  
(individually sealed)

## Wipes & cleaning solution

With patented 2-in-1 detergent and disinfectant formulation, Clinell Universal wipes provide hospital-grade protection that you can trust.

Designed for real-world use, Clinell Universal wipes helps to reduce the risk of infection, killing 99.99% of known causes of infections: bacteria, enveloped viruses, mycobacteria and fungi. Recommended for:

- Actual spirometer keys and screens
- Transducer housing
- Cables to transducer
- Consider test subject using a disposable glove to hold the transducer.

PeraSafe® cleaning solution is suitable for disinfecting a wide range of medical equipment, including spirometers. PeraSafe® cleaning solution is effective against bacteria, mycobacteria, viruses, fungi and spores. Ordering information:

PeraSafe® cleaning solution  
Amplivox stock code: 1012009,  
£31.22 per bottle (81g)

Clinell Universal wipes  
Amplivox stock code: 1100000  
£11.78 per pack (200)

## Additional information

We recommend that occupational health professionals consider the environment in which spirometry is completed with regard to hygiene/ cleaning and the patient's health. Three helpful sources of information in this respect are:

### **Health and safety executive**

Health surveillance and safety critical medicals during the coronavirus (COVID-19) pandemic

### **ARTP**

ARTP COVID-19 update

### **British Thoracic Society**

COVID-19: information for the respiratory community.

# Blood pressure

## Blood pressure solutions

### Single-use blood pressure cuffs

Blood pressure (BP) measurements are an essential part of medical and health surveillance testing. Single-use BP cuff covers provide safe and effective BP measurements.

The cuffs ensure a transmission barrier is created between the patient/employee when BP tests are to be completed.

- Can be used with any blood pressure cuff and offers additional protection for patients
- Does not affect blood pressure readings
- Comprises of a soft fabricel tissue fused to a leak-proof polyethylene film that offers 99.99% protection from bacteria pass-through
- Provide reduced cleaning requirements for cuffs
- Cuffs are latex-free

Single use BP Cuff Barriers  
(Adult, 50qty, 46x17cm)

Amplivox stock code: 1011022  
£17.68

Single use BP Cuff Barriers  
(Adult Large, 50qty, 57x20cm)

Amplivox stock code: 1011023  
£23.56

### Blood pressure monitor

OMRON are recognised as a leading manufacturer of BP monitors. The M6 OMRON is a high performance digital blood pressure monitor, designed to withstand daily use within healthcare settings. A product that combines ease of use, performance and a competitive price. Benefits include:

- OMRON's patented Intellisense inflation and deflation technology for patient comfort
- The clear LCD display shows heart rate and systolic and diastolic pressures
- Automatic indication of normal and high blood pressure.

OMRON M6 Comfort Digital BP Monitor
