

Model 260

Portable diagnostic audiometer

The **Amplivox 260** audiometer incorporates many innovative features which make it the ideal choice for conducting diagnostic audiometry. Specifically designed for operator ease of use and with a weight of just 830g, the **Amplivox 260** is very portable.

Functionality

The **Amplivox 260** offers air conduction, bone conduction and speech audiometry. Standard features include narrowband and speech weighted masking, together with a number of specialist tests.

Ease of use

A reduced test time and a higher level of test subject concentration are made possible by the threshold retention function. Results can be saved in memory, printed with the optional printer and/or transferred to a PC with the supplied NOAH interface.

Usage

With talk forward/back functionality, the **Amplivox 260** can be used within a static environment with acoustic booths or as a totally portable diagnostic audiometer for peripatetic use.

- Air, bone and speech audiometry
- Compact and very portable
- USB connectivity
- Talk forward/Talk back functions
- Optional insert earphones
- Threshold retention function
- UCL and threshold measurements (AC)
- 11 test frequencies
- -10 to 120 dBHL range (AC)
