+ -

Introduction

After upgrading Oticon Opn firmware, it is necessary to re-pair the instruments with relevant accessories.

This short guide shows you how to re-pair Oticon Opn with different types of accessories.

Please visit www.oticon.global/connectivity for more details on compatibility, or see the description of the Oticon ON App on the App Store® and Google Play™.

twice.

Basic Remote 3.0

1. Prepare remote control for pairing

_ 0 oticon

Press and hold all buttons for

The status LED will flash green

The status LED will then glow green for about 10 seconds to confirm the remote is ready for pairing.

2. Put the hearing aids in pairing mode

Ensure that you have good batteries in the hearing aids. Open the battery drawers of both hearing aids. Wait about five seconds and close the battery doors again.

Wait for about 10 seconds until the hearing aids are fully turned on and the power-onjingle has been played.

The hearing aids will remain in pairing mode for 3 minutes.

Basic Remote 3.0

3. Pair the remote control with the hearing aids

oticon

Place both hearing aids within 20 centimetres of the remote control. Briefly press any key on the remote control to make it automatically pair with the hearing aids.

oticon

When pairing is completed, the status light glows green for about 10 seconds.

TV Adapter 3.0

1. Pair the TV adapter with the hearing aids (no need to clear previous pairings)

Ensure that you have good batteries in the

Open the battery drawers of both hearing aids. Wait about five seconds and close the Wait about 10 seconds, until the hearing aids are fully turned on and the power-on-jingle has been played.

Place both hearing aids close to or on top of the TV Adapter.

Pairing is completed when the power indicator and the TV indicator glows blue for about 30 seconds.

iPhone

1. Remove the "old pairing" from iPhone

App version 1.0.10 and later

1. Remove the "old" pairing from Android device

Start the Oticon ON App

Enter Settings Press the Settings icon to access the secondary features of the Oticon ON App.

Reset App Resetting the app will also remove the old pairing.

Android device

2. Pair the hearing aids with the Android device

Start the Oticon ON App

Allow access to device information

The first time you start the app, allow it to access the device's location. This ensures the best possible functionality.

Turn on Bluetooth oticon > Demo mode

▼⊿ 🛔 12:00

Ensure Bluetooth is switched on

If Bluetooth is switched off on your device, it will automatically show you this message. Press "Turn on Bluetooth" and continue.

Search for your hearing aids Your device will connect to your hearing aids when you start the Oticon ON App. If it can't find your hearing aids, restart them by opening and closing their battery drawers.

hearing aids again.

Connect to your hearing aids Select your hearing aids by pressing the "Pair" button. If someone else's hearing aids appear, try to search for your

Wait for the Oticon ON App to connect

Follow the brief tutorial

The first time you start the app, it presents you with a short overview of how you can control it.
