Ponto Diary
Your sound experiences

**oticon**
MEDICAL

Everyday life with Ponto

In order to see the benefits of the Ponto and the difference it makes to your daily life, we ask you to complete your Ponto Trial Diary. We would ask you to detail situations, the date, the amount of time you wear the processor and your experience.

Place the softband or headband in the correct position, and set the volume control to your preferred listening level.

Oticon Medical would recommend wearing the processor in everyday situations, in order for you to see the difference Ponto can make to your hearing experience. We suggest trying the Ponto in the following settings:

- At home
- Watching TV
- Socialising with friends and family
- The workplace or place of education
- Listening to music
- Telephone conversations

Situation: **Conversation in a quiet setting**

We would love to hear from you!

Because sound matters

Oticon Medical is a global company in implantable hearing solutions, dedicated to bringing the magical world of sound to people at every stage of life. As a member of one of the world's largest groups of hearing healthcare companies, we share a close link with Oticon and direct access to the latest advancements in hearing research and technologies. Our competencies span more than a century of innovations in sound processing and decades of pioneering experience in hearing implant technology.

By working collaboratively with patients, physicians and hearing care professionals, we ensure that every solution we create is designed with user needs in mind. We share an unwavering commitment to provide innovative solutions and support that enhance quality of life for people wherever life may take them. Because we know how much sound matters.
